EARL A. LESTER
Port Huron, Michigan

INTRODUCTION

This volume of the 1923-24 edition of the Port Huron City Directory, presented to my patrons represents a careful enumeration of the citizens of the municipality and immediately adjacent suburban areas, their occupations and pursuits, their social, commercial and industrial interests. The Directory keeps pace with the progress of the times and of the wonderful expansion of Port Huron in industry and in population. It has had the benefit and advantage of all improvements in Directory making. It has served this community faithfully and it is one of the factors contributing to the growth, prosperity and success of the city. There is no other publication that records the names and activities of the citizens. The Directory records Port Huron as she really is. It is a necessary and reliable work of reference today and later becomes a permanent history of the people and their institutions. There is no other publication which gives the information contained in the City Directory, and there is probably no other publication in which people are so vitally interested and no other work so clearly portrays the condition of the community. In modern business and social life the interests of citizens are mutually so interwoven that to readily know where to find each other is a matter of the greatest importance. No other question is so frequently asked by millions of people as the one: "Where does he or she live?" To answer this question is the object of the City Directory. It is an absolute essential in conducting business and social affairs. The Statistical Review of Port Huron following this introductory is especially noteworthy and is also impressive as showing the wonderful strides made by the city in all lines of endeavor and in growth from a small settlement to a beautiful modern city of great industries in 1923.

Thanking the business men for their support and patronage, I am

At your service,

EARL A. LESTER.

Port Huron Chamber of Commerce

1923

Port Huron is the gateway of the Upper Lakes and on the St. Clair River.

Consider this splendid location on the Great Lakes. Port Huron offers a wonderful opportunity to the manufacturer. We have the greatest export and importation shipping facilities in this country.

Upon the completion of the Great Lakes-to-Ocean project, Port Huron will be the same as an ocean port.

Black River is navigable for several miles—a number of industries already are located on its banks. This river passes through the center of the city, emptying into St. Clair River.

Situated on the double-tracked main line of the Grand Trunk running between Chicago, Buffalo, Montreal and Portland, Me. On the Pere Marquette main line between the Niagara frontier and the west through Milwaukee and Manitowoc, and being the terminus for various branches of these great transportation systems, our fast through freight service to and from points east, west, north and south is unexcelled.

Port Huron is also served by the Detroit, Bay City & Western Ry., the Detroit United Ry. (electric) to and from Detroit. The White Star Line river steamers also carry a large volume of tonnage to and from Detroit where they connect with the D. & C. Navigation Co. for Cleveland, Buffalo and eastern points.

A system of Automobile and Truck lines to Detroit and the Thumb district gives passenger and freight service.

Port Huron is the concentration center of the Thumb and St. Clair River districts with a population well over 200,000 people.

Port Huron has a free camp site for the automobile tourist, located along the main line of travel, handy, convenient and is maintained by the city.

Port Huron has approximately 8 miles of beautiful beaches, municipal bathing and dancing pavilions.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell, do themselves a great injustice. The classified lists in the Business Directory form the best Buyer's Guide on earth. A modern, up-to-date method of getting what you want.

Earl A. Lester

Stability and Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, to-day, to-morrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get rich quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?
